NEW INNOVATIVE 4 DAY COURSE LEAD BY OUR PRESTIGIOUS FACULTY

Jim Ognibene, Chris Pudlinski, Lisa Pagano, and Phil Warren

This dynamic academy will guide you in leveling up your skills as a leader in your community. The Academy will help you create a clearer mindset to focus your energy in a solid plan of action to meet the needs of your community's crisis action plan, manage your workforce in this post-COVID environment, and develop a better more efficient process for maintaining your records and files.

TEAM MANAGEMENT

Managing people has always been difficult but it has gotten additionally complex with COVID, staff shortages, and an aging population. We will discuss several changes, what effect they are having and how organizations and managers are responding to these changes.

DATA MANIPULATION

Utilizing spreadsheets to analyze Data information for elections and various licensing requirements in the Clerk's office. Spreadsheet applications are an essential and fundamental tool for clerks to save time in constructing and producing a mechanism that assist in maintaining and accessing data.

CRISIS MANAGEMENT

In many situations, the municipal clerk may be the point of contact in a community for both normal and emergency matters – this session will assist the clerk in the actions needed in a crisis.

MINDSET RESET

This greater understanding and focus can help you come closer to deciding what to carry forward to enhance your career, building on your success.
